7. KIU Wai Fung Keith (BEcon 1999)
10. CHU Wing Ho Rico (BDS 2007, MSc(Community Dent) 2013)

Brief Biography:

Graduated from HKU in 2003 with a BA Degree (First Class Honours), I have been active since university years through serving as undergraduate mentor for high achievers, Chairperson of the Linguistics Society and member of the Rotaract Club. I am thankful to the University for offering the best tertiary education and the reward of many prestige prizes, including an exchange scholarship and the Global Leader’s Award presented by Goldman Sachs. HKU has not only given me the knowledge and professionalism in my career, but also the pride and honour as her alumnae.

I am currently a Statistician of the Education Bureau assisting the Government to compile statistical indicators on school education and performance. My previous posting in the Census and Statistics Department mainly dealt with staff professional training and promotion of statistical literacy in the community.

I have a close bonding with my Alma Mater. Some years ago, I took up the role of Vice Chairperson of HKUAA Young Alumni Group to arrange social and functional activities for our fresh graduates, such as job-hunting sharing, mock-interview sessions and networking events. I am also one of the members of the Alumni Core Group 2003. My other voluntary community duties included being the Secretary of the Beta Gamma Sigma Hong Kong Alumni Chapter, and the industrial mentor of some students.

It’s time for me to pay tribute to where I’m from! By becoming a Standing Committee of the Convocation, I will help promoting a supportive and diversified learning environment for our students, so that the University would continue to cultivate its exemplary tradition and nurture more outstanding leaders and talents with integrity. It is only through unity and harmony, HKU can sustain excellent quality of teaching, research and development, and fully achieve academic autonomy and freedom in long run.
